The background of the entire page is a close-up, high-angle shot of a green printed circuit board (PCB) populated with various electronic components. A central feature is a square Bluetooth module with a gold-colored perimeter. The module's surface is black with white text including 'BLUENRG2', 'FMD3A 9R', and 'THA 040'. It is surrounded by numerous surface-mount components like capacitors and resistors. Overlaid on this technical scene are vibrant, glowing blue lightning bolts that crackle and branch across the frame, creating a sense of dynamic energy and connectivity. The overall color palette is dominated by the green of the PCB and the bright blue of the lightning.
